**Plastic Solutions That
Simplify Everyday Life**

GOLDEX ABOUT US

Vision & Mission

Vision: At **Goldex**, we aspire to become the leading storage products company. We are the forerunners of modern design that met client expectations with reliable and sustainable production. We have evolved with the age of new transformations in this industry. The market is shifting rapidly and we are responsible for adopting and adapting according to demands and opportunities.

Mission: We have provided and served a magnitude of the storage containers industry. As a wholesome company, we have faced challenges that required determination and perfection. **Goldex** strives to bring the best services in this industry both in Turkey and internationally. This will be achieved with a professional sense of commitment that will help us build lasting relations with our devoted buyers.

Corporate History

Goldex Group first opened its door in 1989. After establishing the first company, we have moved to become the largest wholesaler in Istanbul's Asian side. Early in its business career, **Goldex** developed and grew steadily between 1989 to 1997 towards becoming an internationally recognized company. **With a daily turnover of approximately 66,000 USD, Goldex has become the forerunner of the wholesale industry.** Around 1997, we have resolved to take a risk and start our production in the various markets. We still focus on the wholesale market as the main target. This followed the efforts to build new industrial sites for production that started in 2012. **As of 2015, Goldex started to proudly present its production to the market.** The production of plastic kitchenware was the pioneer material that were produced. They were presented according to the specification that was evolving with the market and client needs. They were shipped both locally and globally.

We presented our products in fairs acknowledged both locally and internationally. During 2015-2017, we have built state of the art facility that enclosed 2,000 m² area in Şekerpınar. We now have a space of 6,300 m² & 6,500 m² in the industrial city of Kocaeli. This advancement continued with the aspiration of building a booming and volatile industry that demanded more investments. Our first global investment started in Turkmenistan that lasted for five years for completion. Our story in Turkmenistan started with a plan to build a factory with a space of 11,000 m² of the enclosed area. It was completed on 01.09.2020. We expect to raise it to 170,000 m² in the upcoming 4 years. With modernized 300 injection machines, we are planning to produce 30 trucks (40 containers) per day. That will give us the essential period to keep up with the global market and become the world's leading provider. Currently, our companies can produce 30 pcs moulds in the company located in Turkmenistan. **This allowed us to provide a premium of 30%-50% price deduction than the existing prices.** With such capability, we can produce 80,000 tons of raw materials that are available for usage per year.

Our story has started with a strong lead and we are here to continue the race and become an official international competitor. This story has emerged along with game-changing experience and we have evolved to become faster and reliable.

Operations

Our company is based both in Turkey and Turkmenistan. With the latest technological machinery, we are able to produce storage containers with swift response and agile delivery. We take the customers demand very seriously and see that a professional service is provided.

With 35 years of experience, we have learned the market's demand and earned the client's satisfaction. Our round the clock offices have operations according to your standarts. Our 10 years of manufacturing experience has led us to maintain sustainable production that brought both developments of products and increased demands of storage containers that are quality guaranteed.

Our industry sites are built based on international standards and verified for usage that produces eco-friendly plastic products.

Services

Ultimate Elegance

Our products have met the design of the age by combining the elegance of easy use and viable materials. Our team works tirelessly to bring the best model that would meet international standards.

Different & Convenient

Diversity and variety are important tools for competing with the storage container industry. With customer satisfaction at the forefront, we have succeeded in bringing to you goods that are diversified with specifications on demand.

Easy Viewing

One special feature of our products is that they are quite easy to recognize and grab attention with their ease of viewing and access. This allowed for the development of designs that can become much more tangible for customers that request simplicity and durability of plastic containers.

Safe Raw Materials

Our products are tested by labs for safety precautions. Safety is a key aspect that should be considered with every product we sell. We make sure that our customers aren't concerned with any hazardous elements that would both harm the environment and usage so we try our best to secure the products and provide the safest option.

Modern & Innovative

At first glance, you can notice the products' modern design that amuse the buyer. You can review the catalog and hence decide the model that best describes the products that are befitting your demands.
